Awakening Your Light Body with Cindy Libman

WHAT IS THE LIGHT BODY?

Your light body is an energy body that exists at a higher level, closer to your soul than your chakras. You have seven vibrational energy body centers and three light body centers, for a total of ten centers that power and make up your light body. As you awaken your light body, you will learn how to change less harmonious energies into positive ones and use the energy around you to go higher. You may experience a stronger sense of personal power and a greater ability to control your emotions, stay centered, release old blocks and stuck emotional energy, and respond with love and compassion. Your light body opens doorways to the higher realms of light, such as the soul plane.

Awakening your light body assists you in adding light to your thoughts, opening your channel upward, and connecting with the Universal Mind. As you awaken your light body, you will learn how to get into states of consciousness where you can more easily choose actions that reflect the light of your soul and Higher Self. You can experience many illuminated states of awareness in these journeys; states of consciousness that are deeply insightful, blissful, and take you beyond thought into direct experiences of beingness. In these states you can see, sense, or feel the expansive energies of the higher dimensions and make them a part of your daily life. Awakening your light body may be your next step of spiritual growth, if it calls to you and feels right to the deepest part of your being.
